

I am writing to try to explain to you the high value I place upon the K-LOVE signal. Please do not disturb their broadcasting. In my community they are the only station to provide continuous uplifting music and messages. There is one other FM station in town, but they are often filled with talking shows instead of music. I am also delighted to know that my friends who moved to Albuquerque are listening to the same music I am hearing day-to-day. If K-LOVE were to be displaced by an LPFM broadcaster with other programming I would not listen to it and would continue to protest the loss of K-LOVE. I believe the current programs on K-LOVE are in the public interest as they provide encouragement and entertainment for young and old alike. They do not send messages of violence, promiscuity, or greed. Please let them do their job undisturbed.
